Subcontracting and Impact on Credit received for City of Cleveland certified firms:

- **Example 1:** if you award a \$100k contract to a certified MBE Subcontractor and they in turn subcontract and pay \$50k to a non-certified firm, then the project will only receive \$50k MBE Credit towards the MBE Goal. The project only gets credit for the total amount retained by the certified firm.
- **Example 2:** if you award a \$100k contract to a certified MBE Supplier (who does not manufacture the product(s)) then the project will only receive 60% (\$100k) MBE Credit towards the Goal. The project will only receive credit for \$60k towards the MBE Goal.
- **Example 3:** if you award a \$100k contract to a certified MBE Supplier (who also manufactured the product(s) – like TECH READY MIX, INC. who manufactures and supplies concrete) then the project will only receive the full \$100k MBE Credit towards the Goal. The project will only receive credit for \$100k towards the MBE Goal.

Important Reminders:

- **Reminder 1 – Construction and/or Mechanical Work:**

Any vendor or subcontractor who performs any construction or mechanical work on the project must be (1) set up in B2Gnow and LCPTracker and (2) enter certified payrolls for employees who worked on the project in LCPTracker.

- **Reminder 2 - Subcontracting the Labor:**

If a supplier or broker hires a subcontractor to perform labor then **(1) the broker and subcontractor must be added to B2Gnow;** (2) however in LCPTracker the broker does not get assigned to the project and the subcontractor gets listed as a subcontractor under the General Contractor.

- **Reminder 3 - Which suppliers get added to B2Gnow?**

1. If the general contractor purchases supplies for the subcontractor, then the supplier must be listed in B2Gnow.
2. If the supplies are directly purchased by and are installed by the subcontractor and the total amount is not material then the supplier does not need to be listed.
3. If a broker is purchasing supplies, then all suppliers must be listed.
4. All City of Cleveland Suppliers working on the project get added to B2Gnow.
